

KAPUGANTI NITHYA SREE

+91-8179799508 | 23211A05D5@bvr.it.ac.in | Portfolio | LinkedIn | GitHub

PROFILE

Passionate CS student with experience in front-end development using ReactJS and a strong foundation in OOP. Expertise includes full-stack development, AI/ML integration in web apps, and leading teams through problem-solving challenges. Excels in collaborative environments, code reviews, and performance optimization while adapting to the latest industry practices to create impactful solutions.

EDUCATION

Exam	Majors	Institute	Year	CPI/%
B.Tech	CSE	B V Raju Institute of Technology	2023–2027	9.34
Intermediate	MPC	Narayana Junior College	2021–2023	97.7%
SSC	State Board	Sri Chaitanya Techno School	2021	10.0

SKILLS

Languages: Java, Python, C++, C, SQL **Web:** HTML, CSS, Tailwind, JavaScript, ReactJS, Express, Node.js

Data Science & ML: NumPy, Pandas, Matplotlib **Tools:** GitHub, VS Code, Postman, Google Colab, Canva

Soft Skills: Teamwork, Leadership, Communication, Networking

EXPERIENCE

Internship @ NIT Arunachal Pradesh November 2025 – January 2026
Real Time Project, Arunachal Pradesh, India

- Built a simulation system to monitor space debris movement and estimate proximity risks using satellite TLE data and machine learning techniques.

MY WORK

Delivery Tracking System | *React, Node.js, MySQL, Express.js* Jan 2026

- Developed a real-time delivery tracking web app allowing users to monitor order status dynamically.
- Built Node.js and MySQL backend to manage delivery data, REST APIs, and authentication efficiently.

Space Debris Tracking Simulation | *Python, ML, TLE Data, Matplotlib* Dec 2025

- Built a simulation model to analyze and track space debris trajectories using satellite TLE orbital datasets.
- Applied ML techniques to detect proximity risks between debris and satellites for collision risk analysis.

Gen AI Powered CrowdTesting | *HTML, CSS, JavaScript, React, Firebase* April 2025

- Built a crowdsourced bug reporting platform enabling distributed testing across multiple users.
- Integrated Firebase Authentication for secure access; reduced overall testing time by 40%.

CERTIFICATIONS

- Oracle:** Java Foundations, Java Fundamentals **NPTEL:** DSA Using Java, Soft Skills
- CISCO:** C++, Python, C **AFE Bootcamp:** Python and AI **Udemy:** ChatGPT and AI
- TASK:** Frontend **EF SET:** English Proficiency **Infosys Springboard:** Python Foundation
- Reliance Foundation:** Frontend Development **Innomatics:** Full Stack Development

ACHIEVEMENTS

Laptop Scholarship Recipient 2026, Birlasoft & Smile Foundation

- Selected for a technology support initiative recognizing academic potential; awarded a laptop to support technical learning.

Infosys Pragati: Path to Future 2025, Infosys

- Selected for Infosys Pragati initiative mentoring women engineering students through skill development and career guidance.

Promethean Hackathon – AI Project 2024, BVRIT

- Built a functional AI project within 4 hours, demonstrating rapid prototyping and problem-solving skills.

PATENTS AND PUBLICATIONS

[C.1] Kapuganti Nithya Sree. (2025). *Enhancing Software Quality with Gen AI Powered Crowdttesting*. In Proceedings of CISCON 2025, Manipal, India. IEEE. 01–02 August 2025. DOI: 10.1109/CISCON66933.2025.11337867

LEADERSHIP & EXTRACURRICULAR

Internshala Student Partner (ISP) – Campus Ambassador, BVRIT 2025

- Promoted internships to 100+ students at BVRIT; conducted sessions increasing platform sign-ups.

GSSoC – GirlScript Summer of Code – Campus Ambassador, BVRIT 2025

- Encouraged open-source contribution and guided newcomers on participation and contribution workflows.
